

CELCA Grant Application Form

Application Reference: GM 06/06/23.3

Applicant/Organisation:

Application is from an individual on behalf of the residents of the community.

Reason for Application:

The grant will continue to fund subsidised membership of Duns Swimming pool for community residents and provide free swimming lessons for children.

Benefit to the Community:

The annual swimming membership has been well received. The aim is to encourage a long-term habit of swimming for health and well-being and to enable children to learn how to swim. In order to make the scheme affordable to all, I propose a participant contribution of 30%, which means people gain access to all the membership benefits of the pool for a very reasonable cost. The application includes lessons for 18 children in the Community. This is a potential life-saving skill for them which will benefit them all their lives. The funding is open to all ages and is encouraging families to participate in physical activity together.

Disability Provisions:

The swimming pool welcomes everyone including those with disabilities.

There is a hoist to allow disabled access to the pool.

Details of Funding Requested:

ITEM	QTY	COST
Children's swimming lessons (fully funded)	18@£260	£4,680.00
Annual memberships funded at 70%		
Family memberships	5@£402	£2,010.00
