

Project Proposal for Longformacus Kids Club

To provide a monthly STEM workshop to children aged 4 - 10 at Longformacus Village Hall for a period of 5 months during 2026

Outline of Workshops:

Each workshop will have a Science, Technology/Engineering or Maths focus and will be based around a specific topic.

Each workshop will last 1hour 30 minutes

All materials will be provided (some donations will be requested of recycling materials for junk modelling sessions).

Each workshop will cost £100 for up to 12 children (additional children above this will be £5 each)

In order to prepare for each workshop, I will require to know a rough idea of numbers expected a week in advance.
